# CART

## Mobility & Storage Accessory for the AirPal Lateral Patient Transfer system

Unique among competitive mobility and storage products, the economical AirPal CART offers rapid access and mobility for the AirPal system.

### New ultra-small “footprint”

The AirPal CART has been designed with a new ultra-small “footprint” to minimize the use of floor space. With features that simplify cleaning and maintenance, the CART keeps the AirPal system together and reduces the possibility of component loss. Made from hospital-grade materials, the AirPal CART is easily assembled and adjusted with a standard Allen wrench.

### Keep your AirPal system together!

The AirPal CART (0500-2) offers exceptional utility and convenience for a very affordable price—just what you’d expect from AirPal!
